

Earth Day Celebrations @ GBS

Earth Day was celebrated on 22nd April, 2023 in Gyan Bharati School to help us realize our responsibilities towards Mother Earth. A plethora of activities were conducted across all levels to create awareness among students and sensitize them towards making our earth greener. The students of the Pre-Primary took a pledge to preserve and conserve our planet. Poster making and organizing green walks were few of the activities that were conducted. Our young learners of the Primary, engaged in meaningful discussions about how to keep our Earth happy and contributed to the local ecosystem by planting trees within the school premises. Eco friendly newspaper folders were made to reduce waste and promote the idea of upcycling. The 5th graders designed wonderful Earth day brochures to spread awareness about environmental woes. The Middle school put up thought-provoking installations made of sustainable materials and the senior students made a telling documentary that touched upon climate change and the need for sustainable development. Morning assemblies were also conducted on the occasion to inspire students to think and act appropriately to save our planet. Students participated in all activities with great zeal and enthusiasm, showcasing their artistic and creative skills. The activities definitely helped to spark the passion in our young students, who felt motivated to spread the message and take action before it's too late!
