

## National Technology Day

On the occasion of 25<sup>th</sup> year of the **National Technology Day**, the Cyber Byte Club of Gyan Bharati School organised a lecture on 12<sup>th</sup> May, 2023 by the Guest Speaker, **Mr. Sanjay Khanna**, a notable personality in the field of technology, in the presence of the School Director, Ms. Lata Vaidyanathan and the School Principal, Dr. Mudita Sharma.

Mr. Khanna engaged the young learners in an enlightening session on '**Green Computing**'. He began by defining the term and then highlighted the various aspects of Green Computing and how it could be practised in our day-to-day lives. He expressed his concern about the enormous generation of e-waste and suggested some methods to reduce its production. During his interaction with the students, he encouraged them to take to green computing, thereby maximize energy efficiency and minimize environment impact.

A short and fun video using **Augmented Reality** titled "Jungle Safari" prepared by the Pre-primary department and an interesting video on **Future Technology** prepared by the students of class 7 were also showcased. The young learners across all levels put up their exhibits that displayed their penchant for innovation and ingenuity. The projects were based on Minecraft, arcade, Arduino, digital imaging, AR technology, robotics and art with science.

The programme was an endeavour to remind one and all of the role of technology in our routine lives and how to use it effectively and efficiently.
