

Gyan Bharati School
Saket, New Delhi

DATE: 10.08.2023

NAME OF THE EVENT: PRIMARY EXHIBITION

CLASSES: PRIMARY CLASSES

TEACHER INCHARGE: MS. RADHIKA JAWA AND MS. VARSHA ARORA

The Primary School Exhibition, held at Gyan Bharati School on 10th August 2023, effectively demonstrated the evolution of the primary education curriculum and teaching methods.

Title: Exhibition of joyful Development Curriculum: Showcasing Holistic Learning, Practical Skills, and Competences at Primary department , Gyan Bharati school

The exhibition was graced by Mr. Mekala Chaitanya Prasad, IAS, District Magistrate South, and guest of honour Ms. Kiran Datar, a distinguished educator. The exhibition showcased students' holistic learning, practical skills, and competencies, aligning with the school's commitment to providing a well-rounded education. It aimed to demonstrate the effectiveness of the school's innovative approach to education. The curriculum integrates practical skills, critical thinking, creativity, and a focus on competencies to prepare students for the challenges of the modern world.

The exhibition featured a diverse range of projects, presentations, and interactive displays created by students across various grades. Each exhibit showcased the practical application of knowledge gained through the development curriculum, highlighting the competencies developed by the students presented innovative projects that blended multiple disciplines, fostering interdisciplinary thinking. These projects not only demonstrated subject knowledge but also showcased the competence of students in applying their skills to real-world. Many exhibits highlighted collaborative learning experiences, showcasing students' competence in teamwork, communication, and coordination.

The exhibition highlighted how students competently applied theoretical knowledge to real-world scenarios, reflecting the school's dedication to experiential learning and competency development.

Our distinguished guests and parents were impressed by the practical skills, creativity, and competencies displayed by the children. The event fostered a deeper understanding of the school's approach to education.

Teachers reported a sense of accomplishment, witnessing students' all round growth in various skills and their ability to apply knowledge competently in innovative ways. The event was a resounding success, demonstrating the school's commitment to holistic education, skill development, and the cultivation of competencies. The event highlighted the importance of integrating innovative approaches in the educational journey for most meaningful and satisfying results.

Title: Art-Integrated Project: Exploring paired state Andaman and Nicobar Islands and Lakshadweep through children's creativity

The exhibition on the above showcased an art-integrated learning initiative undertaken by students at primary department in Gyan Bharati School. The project aimed to explore and represent the unique characteristics of paired state Andaman and Nicobar Islands and Lakshadweep through the creative expressions of young learners.

The art-integrated project engaged students from grades 3-5 to delve into the natural beauty, cultural diversity, and ecological significance of paired state Andaman and Nicobar Islands, along with its lesser-known counterpart, Lakshadweep. Through a combination of artistic exploration and research, students gained a holistic understanding of these islands. The students were encouraged to explore geographical diversity and learn about the unique features of the islands. It also fostered creativity and imagination by allowing students to express their understanding through various art forms.
