

On August 19, on the occasion of the World Photography Day a team of 9 students of the Photography Club of Gyan Bharati School, along with their teacher, Mrs. Kanika Ahluwalia embarked on an expedition to Bhondsi Nature Park.

Their enchanting journey into the heart of nature's beauty, offered a unique and immersive experience.

The team skilfully captured stunning images of elusive avian species like Sirkeer Malkoha, Rock eagle owl, Indian Pitta and many more.

The nature walk through the park unveiled some hidden wonders and fostered a deep connection with the environment, instilling a profound appreciation for the intricate balance of life.
