

FIRE SAFETY DRILL: A LIFE SAVING EXERCISE

Fire is rare when care is there. A fire safety drill was organized for the entire staff of Gyan Bharati School on 15th March 2024 in the same spirit. Mr. Ram Babu Tiwari, a fire safety trainer, made the teachers aware of a different meaning for FIRE that can be utilized in times of crisis. F stands for Find, the period in which you locate the source, I stands for Inform: spread information and evacuate, R stands for Restrict: restrict movement in the place of fire and E stands for Extinguish: people from the fire brigade will intervene to extinguish the fire. This was followed by a live demo of how to use fire extinguishers and a discussion on which extinguisher to use for fires generated by different mediums/causes (Powder / CO2). The teachers and staff also learnt how to operate the water cannon in the school campus. The objective of the session was to create awareness about fire-fighting techniques and the ways to respond swiftly in times of emergency situations. The session proved to be informative and an imperative lesson on life saving skills.
