

Report: Parent & Student Orientation on Sustainable Careers in the Era of Artificial Intelligence for Class S2

The school organized a workshop in collaboration with PRATHAM, aimed at enlightening students about Sustainable Careers in the Era of Artificial Intelligence on 14.03.2024 for parents & students of S2. Mr. Ritesh Jain conducted an interactive session. The workshop provided insights into the evolving job market and the skills required to thrive in these new career paths.

The emphasis was placed on careers in technology, including artificial intelligence, data science, cyber security, marketing managers, mental health, content designers, etc. Students learned about the increasing demand for professionals skilled in these areas and the potential for innovation.

The workshop explored careers in the creative industries, including graphic design, content creation, and digital marketing. Students learned about the importance of creativity and innovation in these fields.

Parents as well as students were encouraged to develop a diverse skill set and remain adaptable to changes in the job market. The importance of continuous learning and staying updated with industry trends was emphasized. After the session by Mr. Ritesh, Ms.Neha Sharma from Gyan Bharati School conducted a 15 minute orientation on differences between CS & AI.

Lastly, stream preference forms were handed to the parents & were asked to guide & decide with their children what streams they would like to opt for in the upcoming academic year.
