

## **EXCURSION TO NATIONAL SCIENCE CENTRE**

On 18<sup>th</sup> April 2024, the students of P3 embarked on an exciting educational excursion to the National Science Centre. The purpose of it was to enhance students' understanding of various scientific concepts through interactive exhibits and hands-on activities. Upon arrival, students were divided into small groups and guided through the different sections of the science centre. Each exhibit offered engaging displays and interactive demonstrations to reinforce classroom learning.

Through hands-on experiments and demonstrations, students gained insights into scientific concepts. The immersive experience sparked curiosity among students. Students also witnessed live science demonstrations. These demonstrations showcased intriguing experiments and phenomena, captivating the attention of young learners and fostering a deeper appreciation for the wonders of science.

The excursion to the National Science Centre provided students of P3 with a memorable and enriching learning experience. By engaging with interactive exhibits and observing demonstrations students deepened their understanding of science while igniting their passion for exploration and discovery. The trip was a resounding success, leaving a lasting impression on young minds and inspiring future scientists and innovators.
